To Whom It May Concern,

I am writing to enthusiastically recommend Dhruv Toprani for any future academic or professional opportunities. During his time as a Summer Intern with our team at Whisker, Dhruv consistently exceeded expectations, demonstrating a rare and highly valuable combination of technical acumen and exceptional interpersonal skills.

During his internship, Dhruv took full ownership of our Scrum Administration. He expertly facilitated and ran various Agile ceremonies, ensuring our team remained aligned, unblocked, and highly productive. Beyond day-to-day operations, Dhruv played a pivotal role in our Program Increment (PI) planning. He not only helped synthesize complex project data but also presented the PI readout to the broader team and senior leadership, showcasing his confidence and strong communication skills.

In addition to his leadership within our Agile processes, Dhruv made significant technical contributions. Recognizing a need for better reporting, he independently developed an automation solution that extracts and formats data directly from Jira. This tool now generates customized weekly readouts tailored to various stakeholder audiences, saving our team hours of manual work and greatly improving our cross-departmental visibility.

Dhruv is a natural problem solver who bridges the gap between technical execution and team collaboration. His ability to write effective code, streamline complex workflows, and communicate clearly with diverse audiences makes him a standout talent. He is a highly motivated self-starter and a genuine pleasure to work with.

I have no doubt that Dhruv will be a tremendous asset to any team he joins. Please feel free to reach out to me if you need any further information regarding his time with us.

Sincerely,
Tom Kocik
